FINANCES and MARKETS

[Republican A. P. Leased Wire]
NEW YORK, May 31 (Wall Street).
The operations of pools and cliques
in special stocks contributed very
largely to today's obviously profes-
sional market. Except for Lehigh Valley
and Reading, which were active and
strong at times, the railway list man-
ifested little of last week's animation,
despite the issuance of numerous state-
ments of earnings over the holiday.
Norfolk and Western however, rose to
the new high price of 125 1/2, allowing
for the reduction of its regular and
extra dividends of 2 1/2 per cent.

Standard stocks were obscured by the
prominence of motors, rubbers, minor
steel and iron issues, and Mercantile
Marine preferred. New maximums
were registered by two of the automo-
biles group, Chandler Motors rising
3 1/2 to 108 1/2, with Lee Tire up 1 1/2 to
54 1/2.

Mexicans, particularly oils, were dis-
posed to advance at the outset, but lost
considerable ground later on publica-
tion of the tenor of the Carranza note,
which created fears of renewed compli-
cations. International Harvester issues
were perceptibly strengthened by the
increased earnings disclosed in the an-
nual statements of the domestic and
foreign companies and copper and zinc
shares were under reduced pressure.

The hollow character of the day's
trading was evidenced by the ease with
which prices shaded in the final hour.
Reading leading the decline and chang-
ing various early gains to moderate net
losses.

Total sales amounted to 255,000
shares.
More gold from Canada for account
of the Bank of England brought total
imports of the metal on the present
movement up to about \$23,500,000 and
tended to harden exchange rates to
London.

The bond market was firm. Total
sales, par value \$4,135,000.
U. S. Coupon 2s declined 1/4 per cent
on call.

CHICAGO GRAIN

CHICAGO, May 31.—Declines to the
lowest prices since last March took
place in the wheat market today be-
cause of huge stocks in store and
abroad and as a result of improved do-
mestic crop reports. Closing quan-
tities however, were unsettled, ranging
from 2 1/2 cents down to a shade ad-
vance, with July at \$1.07 1/2 % and
September at \$1.09. Corn finished
1/4 % to 2 1/2 % up, oats unchanged to
1/4 % lower and provisions irregular vary-
ing from 15 cents decline to a rise of
20 cents.

Weakness in wheat became acute af-
ter announcement that world's stocks
were the largest on record at this time
of the year. In this connection it was
shown that the total available supply
had increased in the last week, 5,838,000
bushels, as against a decrease of 7,869,-
000 bushels at the corresponding time
last year.

Word came from Oklahoma that
many fields which before the recent
rains looked worthless were now likely
to show a fair yield at harvest.
On the break, a considerable number
of wheat traders who had been con-
spicuous buyers took suddenly to the
selling side of the market.

In the corn crowd, belated May
shorts found settlements difficult until
a substantial premium was paid.
Bearish crop reports weakened oats.
In Oklahoma where severe damage
has been done by the drought benefits
were said to be apparent as a result
of rains.

Notwithstanding that at first on ac-
count of liquidations provisions under-
went sharp losses, the market after-
ward rallied.
